Quickstart for the model MT/BMT door operator

Medium Duty Logic

This QuickStart is intended to highlight a typical installation. These instructions are not intended to be comprehensive. Because each application is unique, it is the responsibility of the purchaser, designer, installer and end user to ensure that the total door system is safe for its intended use. Please consult the manual and/or a qualified technician for further information.

NOTE: Intended for Professional Installation Only. Visit www.LiftMaster.com to locate a professional installing dealer in your area.

A SAFETY DEVICE IS HIGHLY RECOMMENDED

LiftMaster® CPS Safety Sensors

Timer to Close Programming

Timer to Close feature enables the operator to close the door after a preset time, adjustable from 5 to 60 seconds. A LiftMaster monitored safety device must be connected and unobstructed to activate this feature. See installation manual for LiftMaster monitored safety device selection and installation.

Timer to Close (TTC)

Timer to Close feature enables the operator to close from the open limit after a preset time, adjustable from 5 to 60 seconds. Requires LiftMaster monitored safety device.

TO PROGRAM

- 1. Begin with door in fully closed position.
- 2. Press and release the LEARN button (LED will light).
- 3. Press and release the TTC button.
- 4. Every press and release of the STOP button will add 5 seconds to the Timer to Close. Example: 30 second TTC = 6 presses of the STOP button.
- 5. Press and release the TTC button to exit programming mode.
- 6. The LED will flash once per 5 seconds of timer setting.

The TTC will become active after completion of the next open cycle **NOTE:** The LED does not indicate that timer is running.

TO VERIFY TIMER TO CLOSE (TTC) SETTING

- 1. Press and release the LEARN button.
- 2. Press and release the TTC button.
- 3. Press and release the TTC button a second time.
- 4. The LED will flash once per 5 seconds of timer setting.

CLEAR TIMER TO CLOSE (TTC)

- 1. Press and release the LEARN button (LED will light.)
- 2. Press and hold the TTC button for 6 seconds.
- 3. Release the TTC button (LED will go out).

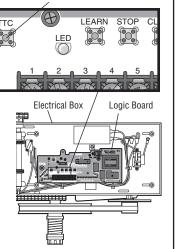

The TTC will no longer be active.

TIMER DEFEAT

The TTC can be temporarily disabled by pressing a STOP button.

TTC will become enabled after the next open command.

Timer To Close Button

Programming Remote Controls

- control until the LED flashes rapidly, then release to complete programming (LED will go out).
- 3. Repeat steps 1 and 2 for additional remote controls.

Electrical Box Logic Board

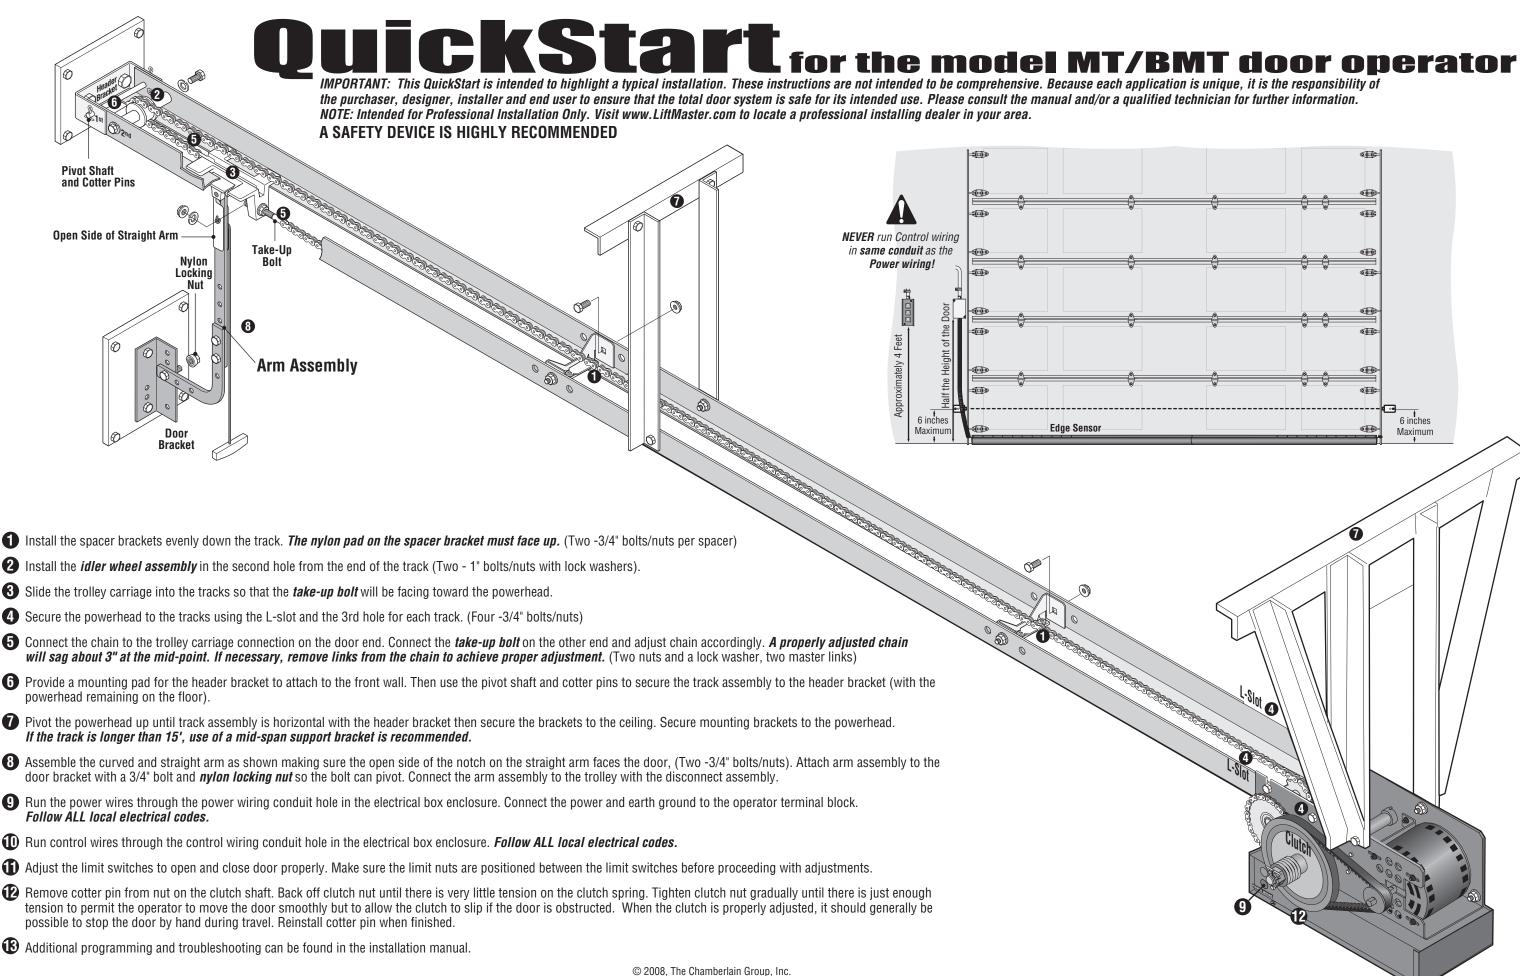

3-BUTTON REMOTE CONTROL TO OPERATE AS A WIRELESS 3-BUTTON CONTROL STATION

NOTE: The feature will use 3 of the 20 memory channels in the operator.

- 1. Press and hold the LEARN button (LED will light).
- 2. Press the desired button on the logic board (OPEN, CLOSE or STOP). Release both buttons.
- 3. Press and hold the desired button of the remote control until LED flashes rapidly, then release.
- Repeat steps 1 through 3 to program additional buttons.

TO ERASE ALL REMOTE CONTROLS

Press and hold the LEARN button (over 5 seconds) until the LED goes out. All programmed remote controls will be erased.
