

The Simple Way to a Smarter Garage

Smart Garage® Control is a quick and easy smart home upgrade that allows you to link your existing garage door opener to the myQ® App so you can control, secure and monitor the home's largest access point from your smartphone. It's sleek white finish blends in with ceilings, walls and garage doors, making it an aesthetic complement to any garage environment. Works with most brands of garage door openers manufactured after 1993 that use photoelectric sensors that do not shut off.*

Features & Benefits

Model 821LMC

Connectivity.

myQ® enables you to securely monitor and control most garage door opener brands, along with home lighting, with your smartphone. Receive free alerts and notifications on your mobile device so that you always know the status of your garage door and home lighting.

Performance.

Controls up to two garage doors at once¹ and up to 16 myQ accessories. Hub plugs into an outlet and mounts on ceiling or walls in the garage. The hub communicates with the garage door opener via radio control. The door sensor mounts on the inside of the garage door.

Compatibility.

Works with most brands of garage door openers manufactured after 1993 that use photoelectric sensors that do not shut off*:

LiftMaster®, **Chamberlain®**, **Craftsman®**, **Raynor®**:

310, 315, 390, 433.30, 433.92, 434.54 MHz

Genie®: Intellicode 315, 390 MHz

Overhead Door®: Intellicode 315, 390 MHz

Wayne Dalton®: KeeLoq® 372.5 MHz

Stanley®: SecureCode 310 MHz

Guardian®: 303 MHz

Xtreme Garage®: 303 MHz

Performax™: 303 MHz

Sommer®: KeeLoq® 310 MHz
