

Smart Elevator Access Controls

Allow residents to securely access elevators from their smartphones.

Safer, Smarter Access

Easy-to-Use and Manage

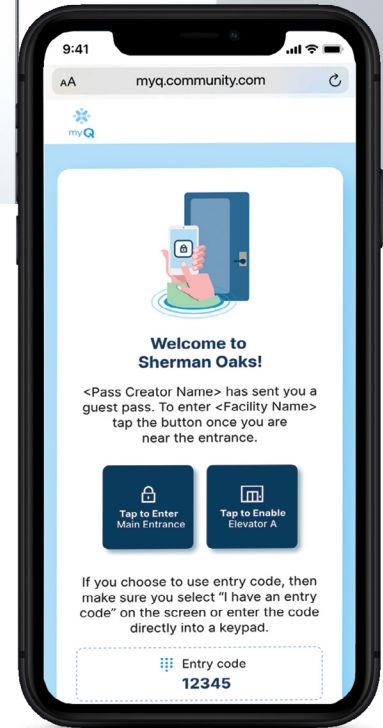

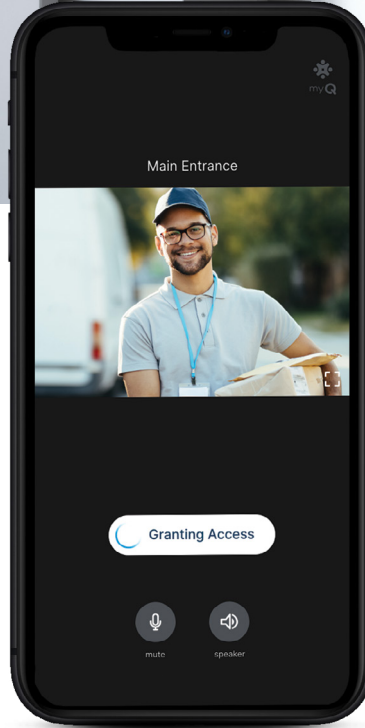

- Credentialed access through the myQ Community app permits access to the elevator and any floor.
- Property manager can assign or remove resident access through the myQ Community web platform at any time.

Affordable Elevator Solution

- Cost effective way to add another layer of security to your building
- Easy installation – Simply wire a Smart Access 2-Door Controller (CAP2D) to the elevator controller

Streamline access throughout your building

Residents

1. Approach elevator
2. Use the app to press to unlock or use a keycard/fob with a reader
3. Now able to use elevator freely

Property Managers

1. Manage who has access to elevators. Can restrict access times.
2. Monitor all access events

Guests / Deliveries

via Smart Video Intercom

1. Call residents via intercom
2. Resident grants access
3. Both front entrance and elevator unlock

via Guest Pass / Delivery Pass

1. Receive virtual pass from resident
2. Use virtual pass to unlock elevator
3. Now able to use elevator freely
4. Residents will receive an app notification that the pass was used.
